Customer Focused

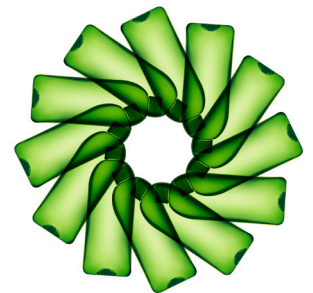

- **Tailored Services**
Collection, disposal and recycling services customized to fit any customer from a single small business to an entire city.
- **Flexible Tools**
Online portal and WM mobile app make it easy for you to request service and manage your accounts anytime, anywhere.
- **Sustainable Solutions**
Our industry experts are dedicated to helping you meet your environmental goals.

Serious about Safety

- **Comprehensive Training**
Our drivers, operators, technicians and managers complete more than 80 hours of on-the-job training and evaluation programs.
- **High-tech Trucks**
With DriveCam®, onboard computers and advanced routing software, we deliver efficient services that exceed industry standards for safety.
- **Waste Watch® Program**
Our Waste Watch-trained drivers partner with first responders to help keep neighborhoods safe.

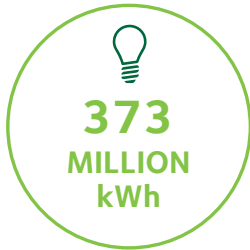

Invested in Recycling

- Waste Management was the first in Colorado to install a single stream processing system. In 2017, we invested \$5 million in new equipment in our Denver-area Material Recovery Facilities (MRF) bringing our 11 year total investment to \$16.5 million!
- Our Franklin Street MRF in Denver can now process up to 40 tons per hour, a 60% increase in capacity! With our new equipment and local partners, all the glass we collect in Colorado is recycled locally into new consumer products.

2017 Environmental Impact

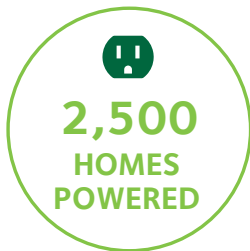

In Colorado, we recycled 174,420 tons of bottles, cans, paper and cardboard.

were offset by recycling.

saved by recycling.

by our local landfill
gas-to-energy efforts.

saved by recycling.

COMPRESSED NATURAL GAS (CNG) TRUCKS

Our CNG fleet saved 1.1 million gallons of diesel fuel and cut greenhouse gas emissions by 1,862 metric tons.

Committed to Communities

Waste Management is proud to support the communities we serve. In 2017, we supported more than 60 community organizations and events, including the following:
